

EEBA Statement of Solidarity with Ukraine

The European Eye Bank Association, along with many international professional associations and societies, is profoundly shocked by the recent unprovoked and devastating attack on a fellow European nation. It condemns the actions of the Russian State in invading Ukraine and expresses its sympathy and support for the Ukrainian people and, above all, for those colleagues working in the fields of human ocular tissue and cell banking and transplantation.

Our thoughts are with the population of Ukraine, our Ukrainian colleagues and their families and, as an association, EEBA will do its best to support them in any way we can, both professionally and individually, as they bravely serve their country and those in need.

Unitedly we hope that a peaceful, equitable and sustainable solution can be found in the very near future.

EEBA President and EEBA Committee in the name of EEBA Members

Liverpool, 5 March 2022

The European Eye Bank Association (EEBA) is a technical-scientific organization comprising individual and institutional members from 27 countries. Founded with the simple objective of sharing information regarding eye-banking, the Association is today the leading pan-national association in Europe dedicated to the advancement of eye-banking and an authoritative reference point for eye banks wishing to work according to quality standards.
